SKILLS

Python

C,C++,Java

Artificial Intelligence

Computer Vision

EDUCATION

2th Grade

Recep Tayyip Erdogan University

2021-2026

Computer Engineering Department

LANGUAGES

English

German

PROFILE

Hello, I am Süleyman Mert. I am a second-year student majoring in Computer Engineering at Recep Tayyip Erdoğan University. As a computer engineering student, I have experience in developing projects in the areas of computer vision, image processing, artificial intelligence, and autonomous driving.

PROJECTS

- Face Recognition Attendance
 - Voice Assistant
 - Hand Controlled Mouse
 - Autonomous Driving
 - Object Detection with Artificial Intelligence
- You can find all of these projects on my Github*

CAREER OBJECTIVE

My career objective is to successfully manage and develop complex projects and become a leading expert in the field of technology. In pursuit of this goal, I aim to enhance my skills by working on autonomous driving , image processing and artificial intelligence projects

CERTIFICATES

- Applied Ros Training from Scratch *Udemy*
- Introduction to data science with R *BTK*
- Python and Tensorflow for Data Science *BTK*
- Machine Learning with Python *BTK*

SINCERELY,

SÜLEYMAN MERT ALMALI
